

SUNBOX[®]

SMART SOLAR SOLUTION

Stand out of your competitors! Install SunBox[®]

About 80% of self-consumption domestic systems in the world use All-in-One equipment, and this is an ever-increasing trend. The All-in-One equipment save mounting time and, as it has been integrally designed and manufactured, offers greater reliability and shorter Technical Support intervention times, which results in greater benefits for the installer and the client.

- ✓ **Lower mounting costs, greater benefit for the installer**
- ✓ **Less after-sales intervention, greater customer satisfaction**
